

# Features Narrative

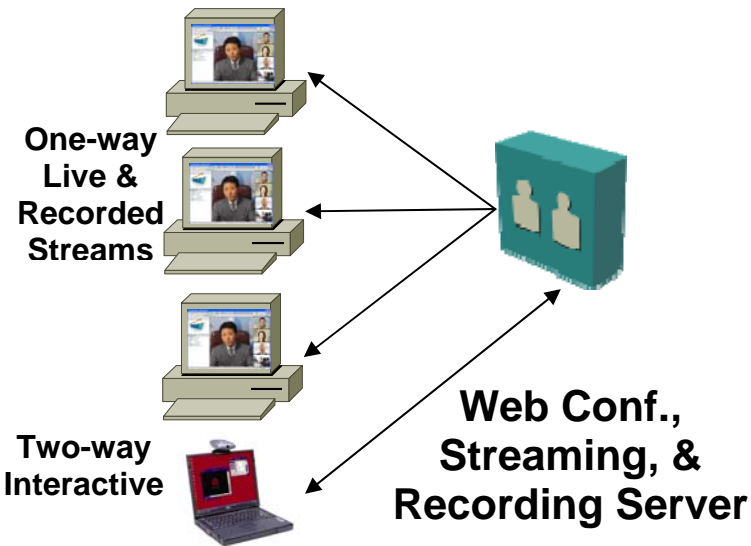

## Video Conferencing

- Two way interaction through a dedicated video system
- UUHC currently supports 89 video conferencing systems, plus over 200 pc-based systems with the College of Nursing
- \$200-\$20,000 endpoints
- Requires Video Bridge for multiple participants - \$250,000
- Systems display graphics one-way
- Can join a web conference, but not see graphics

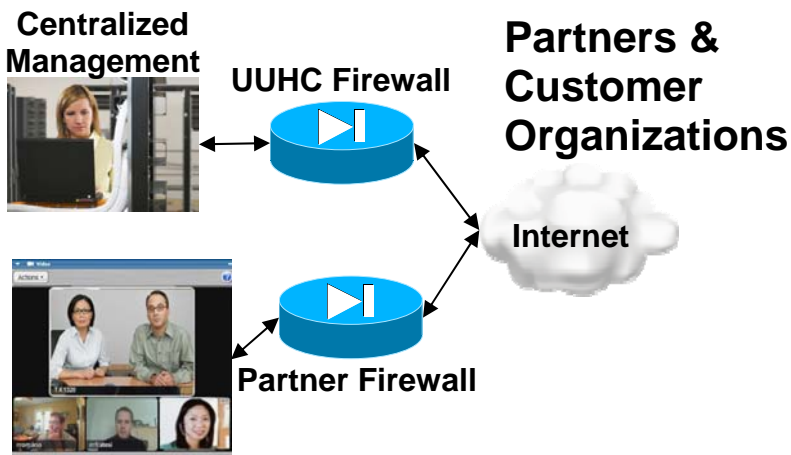

## Web Conferencing

- Two-way interaction through a web browser & camera
- UUHC is currently experimenting with product, but needs to integrate with video conferencing.
- \$57/endpoint or site license
- Servers work with video system, but without desktop sharing.
- Hard to maintain

## Streaming Media

- One-way transmission through a web browser
- Server and post-production tools required

## Conference Management

- Scheduling, Production, Support, Engineering
- Bridges
- Partner development
